

Client Success Story

AIA Billing Solution

We are thrilled to have secured another new customer due to ProScope's unrivalled ability to manage all aspects of billing, within the NetSuite environment. We look forward to working alongside them to implement the solution.

**Dean Gardner, ProScope
Managing Director**

Business Challenges

- Time-consuming manual AIA Billing process.
- Complex projects with varied AIA Billing scenarios.
- Capturing, monitoring and maintaining accurate billing as projects progress.
- Project retentions.
- Missed AIA billing.

Solution

- Seamless Integration with NetSuite ERP
- Automation of AIA billing
- Built-in templates to deal with varied scenarios.
- User-friendly interface allowing real-time monitoring and measurement of status of AIA billing within projects.
- Enhanced project accounting to manage project retentions and variations.

Benefits

- Seamless integration avoiding the need to work on different platforms.
- Reducing the time and increasing the accuracy for the AIA billing process.
- AIA Billing detail easily collated for monthly project reports.
- Clear and comprehensive project controls.
- Charge-based billing prepared at weekly time sheet level.
- Cost value reconciliation reporting.
